

**Welded Ornamental
Fence System**

The Standard Of Excellence

Betafence USA continues to lead the industry in the manufacturing of high quality ornamental fencing. Our welded ornamental panels and gates demonstrate consistent performance for many years because of our commitment to the best metal materials and coatings, and superior workmanship.

Recommended for:

- Office Buildings
- Transportation Projects
- Sports Facilities
- Schools and Universities
- Apartments and Condos
- Government Buildings
- Industrial Facilities

BENEFITS

Wide Selection Of Styles

We offer welded ornamental fencing for Commercial, Industrial and Security projects, with panel styles and gates to meet any architectural and security requirements.

Strength

Our welded ornamental panels and gates are made with only the highest quality galvanized steel tubing, manufactured using post-consumer and post-industrial steel scrap.

Custom Capabilities

Betafence USA has redefined the notion of custom fencing, with our approach to consultative customer service and design, resulting in award winning fence projects.

Superior Coating

Betafence USA's exclusive Architectural Grade Powder Coating protects panels and gates from weather and U.V. aging, ensuring they will retain their beauty and structural integrity for many years, with a minimum of upkeep or maintenance.

Welded Ornamental Fence System

Ornamental Fencing That Stands The Test Of Time

Panels

Our Welded Ornamental panels are manufactured using the highest-strength steel pickets and rails, and are available in a wide range of sizes and styles.

Posts

Panels are attached with high-strength steel brackets to galvanized and powder-coated square tubular steel posts.

Gates

Choose from the widest available range of gate offerings, including opening configurations: Swing, Slide or Cantilever.

Coating

Welded Ornamental panels and gates feature a six-step pre-treatment process, then finished with an Architectural Grade Powder Coat. This super-durable coating is environmentally sound and provides longer protection from U.V. rays and salt spray than either E-Coat or standard polyester coatings.

Colors

Welded Ornamental panels and gates are available standard with black coating. Additional colors, including custom matches, are available.

Warranty

Our Welded Ornamental is backed by a 10-Year Manufacturer's Warranty, giving you the peace of mind that the world's leading producer of fencing stands behind this product.
