

TruView-Alu®

STRONG, DURABLE, AND ATTRACTIVE PERIMETER PROTECTION

Product detail

- Aesthetic and reliable protection
- Flexible and efficient installation
- 20 year warranty
- Superior anti-corrosion coating
- Light yet rigid construction

BENEFITS

Aesthetic appeal

This ornamental fence system is available in different configurations, all finished with superior coating.

Reliable design

The innovative design utilizes an internal mechanical picket to rail construction which is superior to other products that have exposed fasteners which can come loose or welded tabs which may break under a load.

Flexible installation

TruView-Alu® panels have the ability to rack to follow the natural contour of the landscape. A variety of brackets are available for ease of installation.

Versatile

A range of heights to select from makes TruView-Alu® a versatile perimeter solution for residential applications, parks, pools and playgrounds.

Superior Coating

The panels are made using high quality Aluminum tubes and are finished with a superior coating. This coating is durable and environmentally sound. Our powder coating provides excellent weatherability and gloss retention in UV exposure.

Functionalities

Complete Range

Full system 'Panel/Post/Gates' available on stock for a quick turnaround of your project:

- Landmark

Standard Configurations

| | |
|--------------|------------------------------|
| Panel width | 6' (nominal) |
| Panel height | 4', 4.5', 5' |
| Pickets | 5/8" sq x 18 ga. (staggered) |
| Rails | 1.10" cl.18 x 15 ga. |
| Posts | 2" square x 16ga |

Panels

TruView-Alu® panels are manufactured utilizing a unique internal mechanical picket to rail construction. This eliminates picket rattle or removal found in other products. This unique design allows the panels to rack to follow changes in grade.

Warranty

The TruView-Alu® System is backed by a 20 year warranty.

Gates

Choose from a range of pedestrian swing gate of different heights, that matches your fence system.

Superior Polyester Powder Coating

Our TruView-Alu® product undergoes a multi-step application process to produce a superior polyester powder coat finish. This provides greater anti-corrosion and UV resistant protection to keep your fence looking great for years to come.

Bracket Options

Panels are attached with high-strength aluminium brackets to powder-coated aluminium square tubular posts. All brackets are PES coated. Images are only for illustration purposes.
