

UpGrade®

RIGID AND AESTHETIC RACKABLE FENCE SYSTEM

Product detail

- Aesthetic and reliable protection
- Flexible and efficient installation
- 20 year warranty
- Superior anti-corrosion coating

BENEFITS

Aesthetic protection

This ornamental fence system offers a luxurious look, is available in a wide variety of styles and configurations, all finished with a super durable Architectural Grade powder coating.

Reliable design

The innovative design utilizes an internal mechanical picket to rail construction which is superior to other products that have exposed fasteners which can come loose or welded tabs which may break under a load.

Flexible installation

UpGrade® panels have the ability to rack to follow the natural contour of most landscapes. A variety of brackets are available for ease of installation.

Versatile

A range of picket styles and panel heights to select from makes UpGrade® a versatile perimeter solution for commercial properties, public spaces and buildings, schools and sports facilities.

Security level

Applications

Functionalities

Complete Range

Available for commercial and industrial installations in four picket styles:

- Landmark (rail top)

- Summit (flat top picket)

- Defender (security arch)

- Pinnacle (press point)

Warranty

The UpGrade® System is backed by a 20 year manufacturer's warranty.

UpGrade Standard Configurations

	UpGrade-C Commercial	UpGrade-I Industrial
Panel width (nominal)	8'	8'
Panel height	4', 6', 8'	6', 8'
Pickets	3/4" - 16 ga.	1" - 16 ga.
Rails	1 1/2" - 15 ga.	2" - 13 ga.
Posts	2.5" and 3" square posts x 12ga or 14ga (caps included)	

Panels

UpGrade® panels are manufactured utilizing a unique internal mechanical picket to rail construction. This patented design eliminates picket rattle or removal found in other products. This unique design allows the panels to rack to follow changes in grade.

Gates

Compatible with a range of gate styles including pedestrian and swing gates, slide, and cantilever gates.

Superior Coating

The panels are manufactured using galvanized tubular steel, coated with Betafence's exclusive Architectural Grade Powder Coat. This coating is super-durable and environmentally sound. Our powder coating provides the industry's highest weatherability and Gloss Retention in UV exposure – up to 5 times longer than competitors' powder coatings.

Bracket Options

Panels are attached with high-strength steel brackets to galvanized and powder-coated square tubular steel posts.
